1. CONTEXT/ PROBLEM/ / NEED BEING ADDRESSED:**The Programme for Government 2011-2016 states: -**

"We will promote policies which integrate minority ethnic groups in Ireland, and which promote social inclusion, equality, diversity and the participation of immigrants in the economic, social, political and cultural life of their communities."

The European Union's Common Basic Principles (CPBs) (COM(2005)0389 FINAL) on integration of migrants state inter alia:-

'3. Employment is a key part of the integration process and is central to the participation of immigrants, to the contributions immigrants make to the host society, and to making such contributions visible.

4. Basic knowledge of the host society's language, history, and institutions is indispensable to integration; enabling immigrants to acquire this basic knowledge is essential to successful integration.'

Under the Europe 2020 Strategy and the Draft Partnership Agreement for Ireland 2014-2020, Ireland's employment target is: -

'**Employment** - to raise to 69-71% the employment rate for women and men aged 20-64, including through the greater participation of young people, older workers and low-skilled workers and the better integration of legal migrants, and to review the target level of ambition in 2014, in the context of a proposed mid-term review of the Europe 2020 Strategy.'

About 12% of the population of Ireland are non-Irish; of these, 71% are EU nationals. The success of migrants in accessing employment is a key indicator of successful integration. Immigrants arriving in Ireland can encounter barriers to integrate within Irish society. Cultural differences, lack of recognition of qualifications and prior learning, and the need for general orientation to the labour market are some of their key challenges.

This measure is aimed at the most vulnerable of legally resident migrants who are having difficulty accessing employment because of language difficulties, lack of training or social skills. The measure proposes to increase the levels of employability of the participants. These types of measures are referred to in the 'Handbook on Integration for policy-makers and practitioners' published by the European Commission (Second Edition, May 2007).

2. OBJECTIVES OF THE ACTIVITY:

To implement a programme which will increase the employment possibilities for the participants through a comprehensive employment programme embracing all stages of preparation which will include language training around the work place, social skills training and a mentoring programme that will lead to long term placement of the participants in either employment or further training, where appropriate.

Participants will be given the skills and support to become economically viable. The programme will include work place language and social skills training, CV preparation, interview skills; referral to other services will be made as appropriate. This focused approach will ensure that the overall objectives of the programme are met.

3. ESF FUNDED ELEMENT OF ACTIVITY:

The Simplified Costs Option under Article 14(2) of 1304/2013 ESF Regulation is to be applied to the operations of this activity. This means that ESF claims will be made up of eligible direct staff costs plus 40% to cover the remaining eligible costs of an operation.

Eligible direct staff costs includes costs deriving from an agreement between employer and employee or service contracts for external staff (provided that these costs are clearly identifiable). For example, if a beneficiary contracts the services of an external trainer for its in-house training sessions, the invoice needs to identify the different types of costs. The salary of the trainer will be considered as external staff costs. However, teaching materials for example cannot be taken into account.

Staff costs include the total remuneration, including in-kind benefits in line with collective agreements, paid to people in return for work related to the operation. They also include taxes and employees' social security contributions as well as the employer's compulsory and voluntary social contributions. The following are not considered to be staff costs for ESF claim purposes

- Costs of business trips
- Allowances or salaries disbursed for the benefit of participants (e.g. students, trainees) in ESF operations
- Redundancy or back-pay costs paid to staff that are not related to the eligibility period of the operation being co-funded.

Also, any net revenue generated from the co-funded operations shall be deducted from its eligible expenditure in line with section 3.6 of the Department of Education and Skills Circular 1/2015, Eligibility Rules for 2014-2020 ESF and YEI. This includes any maternity and welfare benefits paid/reimbursed to the employer.

4. RESPONSIBILITIES OF INTERMEDIATE BODY:

In line with Article 123(6) of CPR 1303/2013, an administrative agreement between the Managing Authority and Intermediate Body for this activity will formally record in writing the responsibilities and tasks to be carried out by the Intermediate Body on behalf of the Managing Authority.

5. CONTRIBUTION TO HORIZONTAL PRINCIPLES	
A. Promotion of Equality between men and women	The programme will be organised on the basis of equal opportunity. Procedures will be put in place to encourage a balanced approach to participation.
B. Promotion of equal opportunities and non-discrimination	<p>The programme will be managed on the basis of Equal Opportunity for all and will focus on migrants who are eligible to take up employment in Ireland.</p> <p>The programme is committed to equality which includes promoting equality and prohibiting discrimination in employment and in service delivery on nine grounds as defined in the Employment Equality Acts 1998-2011 and the Equal Status Acts 2000-2012. The nine grounds are gender (including gender identity), family status, civil status, sexual orientation, age, disability (including mental health), race (including skin colour, ethnicity and nationality), membership of the Traveller community, religion (including non-religious belief).</p> <p>The programme will provide reasonable accommodation for people with disabilities as in line with equality legislation. It will also allow for positive action to promote or ensure equality through preferential treatment or positive measures which promote equality of opportunity for people who may be disadvantaged because of their circumstances, or to cater for their special needs.</p>
C. Sustainable Development	<p>As set out in the Partnership Agreement, the principle of sustainable development requires that the needs of the present be met without compromising the ability of future generations. This requires support for environmental protection requirements, resource efficiency, sustainable management of natural resources, risk prevention and management are addressed through both dedicated funding streams and through their horizontal integration across the Operational Programmes.</p> <p>The Government sustainable development framework document is intended to provide a platform for the integration of sustainable development principles into policies across all sectors. The framework broadly follows the thematic approach of the <i>EU Sustainable Development Strategy</i> and sets out a wide range of measures that seek to ensure an improvement in Ireland's quality of life into the future. Among the areas listed are sustainability of public finances and economic resilience, sustainable consumption and production, conservation and management of natural resources, climate change and clean energy, social inclusion, sustainable communities and spatial planning, education, communication and behaviour change, innovation, research and development, skills and training and global poverty and sustainable development.</p>
