

Information and Communication Guidelines for European Structural and Investment Funds 2014-2020

Background

Ireland's Partnership Agreement covers four European Structural and Investment (ESI) Funds:

- European Regional Development Fund (ERDF)
- European Social Fund (ESF)
- European Agricultural Fund for Rural Development (EAFRD) and
- European Maritime and Fisheries Fund (EMFF)

These guidelines are being issued by the Department of Public Expenditure and Reform to ensure the information and communication requirements are met for operations approved from 1 January 2014 and thereafter.

These Guidelines only apply to operations funded under the ERDF and ESF. They do not apply to the EAFRD and EMFF.

Information and communication rules relating to the EAFRD are set out in Annex III of [EU Regulation 808/2014](#). And in [EU Regulation 763/2014](#) in relation to the EMFF. While Ireland's ESI funds logo is not required for projects funded under the EAFRD and EMFF, its use in accordance with these Guidelines is encouraged whenever possible.

Information and Communication

Given the scale of the European Union cohesion policy budget (€ 351.8 billion in the 2014-2020 period), it is essential to make potential beneficiaries aware of existing funding opportunities and to communicate to citizens and residents the results of these investments.

Moreover, public funds must be managed in the most transparent way in order to be open for public scrutiny. Member States must, therefore, provide regular and complete information about available investment opportunities and programmes, and they must publish information about projects and beneficiaries.

The information and communication rules for the European Union's **cohesion policy** (ERDF and ESF) are defined in the [EU Regulation No 1303/2013](#) of 17 December 2013 commonly known as the Common Provisions Regulation (CPR). Provisions relating to information and communication can be found under **Articles 115-117 and Annex XII of [EU Regulation 1303/2013](#)** and in accordance with **Articles 3-5 and Annex II of Implementing [EU Regulation 821/2014](#)**.

Briefly, the main information and communication requirements for **cohesion policy** (ERDF and ESF) are set out in Article 115 of the CPR.

Member States and Managing Authorities are responsible for:

- Drawing up a **communication strategy** for each Operational Programme;
- Establishing a **single website** or single website portal providing information on, and access to, all Operational Programmes in that Member State, including information about the timing of implementation of programming and any related public consultation processes;
- Informing potential beneficiaries about **funding opportunities under Operational Programmes**;
- Publicising to Union citizens the roles and **achievements** of cohesion policy and of the funds through information and communication actions on the results and impact of Partnership Agreements, Operational Programmes and operations;
- Organising a programme **launch event**;
- Carrying out **one major annual information activity**;
- Publishing the **list of operations (projects & beneficiaries)**, (to be updated every six months) including the information on each operation specified in the regulation.);
- Displaying the Union emblem at the premises of each Managing Authority.

The above requirements are primarily for the Member State, Managing Authorities and Intermediate Bodies to fulfil. A Communication Strategy must be submitted to the Monitoring Committee for approval no later than six months after the adoption of the Operational Programme. The Monitoring Committee must also approve any amendment to the Communication Strategy. The Communication Strategy shall take into account the size of the Operational Programme or programmes concerned, in accordance with the principle of proportionality.

The minimum information to be set out in the list of operations is laid down in Annex XII of [EU Regulation 1303/2013](#). **Detailed rules concerning the information and communication measures for the public and information measures for applicants and for beneficiaries are also set out in this Annex – see Appendix 3.**

Project beneficiaries are responsible for:

- ensuring that all communication measures acknowledge the support from the funds in line with Article 4 of [EU Regulation 821/2014](#)
- Displaying somewhere on their website (but not necessarily on the home page) the Union emblem and ensuring it is clearly visible and placed in a prominent position
- During implementation of an ERDF operation, the beneficiary shall put up, at a location readily visible to the public, a temporary billboard of a significant size for each operation consisting of the financing of infrastructure or construction operations for which the total public support to the operation exceeds EUR 500 000.
- During implementation of an operation, the beneficiary shall inform the public about the support obtained from the Funds by:
 - a) providing on the beneficiary's website, where such a website exists, a short description of the operation, proportionate to the level of support, including its aims and results, and highlighting the financial support from the Union;
 - b) placing, for operations not falling under points 4 and 5 of Section 2.2 of Annex XII of the Common Provisions Regulation at least one poster (minimum size A3) with information about the project including the financial support from

the Union¹, at a location readily visible to the public, such as the entrance area of a building.

- For operations supported by the ESF, and in appropriate cases for operations supported by the ERDF, the beneficiary shall ensure that those taking part in an operation have been informed of this funding.
- Any document, including any attendance or other certificate, relating to the implementation of an operation which is used for the public or for participants shall include a statement to the effect that the Operational Programme was supported by the Fund or Funds.
- No later than three months after completion of an operation, the beneficiary shall put up a permanent plaque or billboard of significant size at a location readily visible to the public for each operation that fulfils the following criteria:
 - a) the total public support to the operation exceeds EUR 500 000;
 - b) the operation consists of the purchase of a physical object or of the financing of infrastructure or of construction operations.
- The plaque or billboard shall state the name and the main objective of the operation. It shall be prepared in accordance with the technical characteristics adopted by the Commission in accordance with Article 115(4).

It is the responsibility of the Managing Authority of a given programme to ensure that beneficiaries are made aware of their responsibilities. The Managing Authority must also monitor compliance with these rules and fulfil its own communication responsibilities. Please see link below for further information:

http://ec.europa.eu/regional_policy/informing/networking/index_en.cfm

Managing Authorities must also inform beneficiaries that project details will be included in the list of beneficiaries to be updated twice annually for each Operational Programme.

Intermediate Bodies responsible for the delivery of a co-financed scheme are advised to display the Union emblem, the reference to the fund and Ireland's European Union Structural and Investment Funds logo somewhere on their website (but not necessarily on the home page). The Union emblem must be clearly visible and placed in a prominent position.

Graphic standards for creating the Union emblem and the definition of the standard colours

Symbolic Description

Against a background of blue sky, twelve golden stars form a circle representing the union of the peoples of Europe. The number of stars is fixed, twelve being the symbol of perfection and unity.

Heraldic Description

On an azure field a circle of twelve golden mullets, their points not touching.

Geometric Description

The emblem has the form of a blue rectangular flag of which the fly is one and a half times the length of the hoist. Twelve gold stars situated at equal intervals form an invisible circle whose centre is the point of intersection of the diagonals of the rectangle. The radius of the circle is equal to one third of the height of the hoist. Each of the stars has five points which are situated on the circumference of an invisible circle whose radius is equal to one eighteenth of the height of the hoist. All the stars are upright, i.e. with one point vertical and two points in a straight line at right angles to the mast. The circle is arranged so that the stars appear in the position of the hours on the face of a clock. Their number is invariable.

Regulation Colours

The emblem is in the following colours:

- PANTONE REFLEX BLUE for the surface of the rectangle;
- PANTONE YELLOW for the stars.

Four-Colour Process

If the four-colour process is used, recreate the two standard colours by using the four colours of the four-colour process.

Pantone Yellow is obtained by using 100 % 'Process Yellow'.

Pantone Reflex Blue is obtained by mixing 100 % 'Process Cyan' and 80 % 'Process Magenta'.
29.7.2014 L 223/17 Official Journal of the European Union EN

Internet

PANTONE REFLEX BLUE corresponds in the web-palette colour RGB:0/51/153 (hexadecimal: 003399) and PANTONE YELLOW corresponds in the web-palette colour RGB: 255/204/0 (hexadecimal: FFCC00).

Monochrome Reproduction Process

Using black, outline the rectangle in black and print the stars in black on white.

Using blue (Reflex Blue), use 100 % with the stars reproduced in negative white.

Reproduction on a Coloured Background

If there is no alternative to a coloured background, put a white border around the rectangle, the width of the border being 1/25th of the height of the rectangle.

Using the Union Emblem with other logos

For projects/schemes, which are EU co-financed, the EU emblem and Ireland's European Structural and Investment Funds' logo must feature on any information and communication material produced.

Both logos should be of equal size and, to ensure legibility, should not be smaller than a minimum size of 58mm in horizontal width. It is accepted that for small items of merchandise this minimum size may not be achievable.

The Union emblem shall always be clearly visible and placed in a prominent position. Its position and size shall be appropriate to the scale of the material or document being used. For small promotional objects the obligation to make reference to the Fund shall not apply.

If used horizontally Ireland's European Structural and Investment Funds' logo should be placed on the left, followed by the EU emblem and other logos, as appropriate.

If used vertically Ireland's European Structural and Investment Funds' logo should be placed on the top, followed by the EU emblem and other logos, as appropriate. The full range of logos, in Irish and English, colour and monochrome, in JPEG and EPS (Encapsulated PostScript) format are available from the Managing Authorities' websites set out on Page 11.

Sufficient ‘breathing spaces’ between logos should be utilised to enhance the visual appearance of publications and signage.

The start of a major infrastructural project or scheme provides an opportunity to promote the role of the European Structural and Investment Funds.

Signage & Branding

Prior to the start of a project, roadside and site signage communicates to the passing public that a major project is about to commence. This can apply not only to infrastructure projects or schemes, but also to community-based projects, e.g. local tourism initiatives, rural development schemes, etc.

Launching the Project

A publicity event, attended by a senior Minister, local public representatives and the local media should be organised for the start of a project or scheme. Beneficiaries are advised to liaise with the Managing Authority in event of the project launch to ensure compliance under the regulation and to maximise publicity for the fund. European Union and Managing Authority representatives should be invited to the launch of EU funded projects.

Media

For the promotion of projects the focus should be firmly on the local media. A strong presence should be established with local radio with project coordinators on hand to answer questions from the general public. Advertising in the local press should be considered as an option in any project communication plan.

Online Activity

The websites of the Managing Authorities are updated regularly. It is the responsibility of local implementers to ensure that their information is published on these central websites, in addition to developing and maintaining their own websites.

Where Social Media is used to promote co-funded Operations and projects, local implementers must provide a reference to the appropriate Fund.
